Eurex Partnership Program
Expansion to the Repo Segment

October 2020
The Eurex repo services are fully integrated into the Euro denominated product suite across trading and clearing.

As „Home of the Euro“ Eurex focuses on dealing efficiencies across Euro-denominated products in Fixed Income, Funding and Financing.

Eurex Repo operates three markets for secured funding and financing with direct connection to Eurex Clearing: GC Pooling, Repo and SecLend.

Eurex Clearing AG is the only fully integrated QCCP maximising capital, margin and collateral efficiencies across instruments.
“Eurex kicked-off the second phase of the Partnership Program and expand the Program to the Special and GC Repo segment as well as the Dealer to Client segment\(^1\) for both trading and clearing”

1) ISA Direct business incl. GC Pooling

31 Repo Participants*

Major market participants supporting the extension of the Program to Repo (2/2)

“J.P. Morgan has been an early supporter and design partner for the OTC interest rate derivatives clearing segment of the Partnership Program. We welcome the planned extension of this successful program which is aimed at broadening market participants’ clearing options for the new asset classes and increasing resiliency.“

Charles Bristow, Co-Head of Global Rates Trading, J.P. Morgan

“...further enhances choice and innovation in the marketplace. Market participants now can tap the full benefits of Eurex Clearing’s integrated value proposition across fixed income derivatives, Repo and FX markets.“

Erik Mueller, CEO Eurex Clearing
Market participants value the additional alternative to clear EUR-denominated Repos…

“With this initiative, Eurex Repo together with Eurex Clearing offers us an alternative for clearing European government bonds and in particular Bund-Repos via Eurex Clearing. Furthermore, it helps to manage our balance sheet with more netting opportunities.”

Lars Stridde, Head of Securities Financing at LBBW

“The established volumes of GC Pooling, when combined with the possibility of more efficient netting, should be a positive driver on the overall repo specials market volumes on the Eurex platform. We welcome this exciting development which closes the loop on the ability to net balance sheet between GC Pooling and Specials.”

Lav Lukic, Global Head of Rates Repo Trading at J.P. Morgan

“Continued high demand for HQLA collateral combined with a concentration of settlement in Europe requires strong sources of market liquidity. The linkage between custody, triparty, CCP and electronic trading are key to achieve this high degree of market efficiency. Commerzbank as a key driver of digital innovation joint the Eurex Partnership Program Repo in order to ensure operational readiness towards the next level of Liquidity/HQLA management.”

Inga Johal, Head of Group Treasury at Commerzbank

“The Financial Market Association AEFMA Germany welcomes the extension of Eurex’s Partnership Program to Repo. The increased liquidity in German Bunds is very important for the EUR-Repo Market, given the need for an alternative central clearer within the EU 27.”

Michael Schneider, Chairman of the Allied European Financial Markets Association (AEFMA) Germany
…as well as new product enhancements and additional balance sheet netting opportunities

“As a design partner of the Eurex Partnership Program, we highly appreciate the inclusion of Repo as it offers us an additional alternative to clear our EUR-denominated Repos.”

Peter Feijer Nielsen, Head of EMEA Finance Desk at Citigroup

“We do all we can to support our customers to ensure a smooth transition to a post Brexit world. Therefore, we are very pleased that the extension of our Partnership Program to the Repo segment meets the market needs and we thank all our design partners.”

Matthias Graulich, Member of the Eurex Clearing Executive Board

“As one of the leading Repo and Securities Lending houses in Germany, we welcome Eurex’s Partnership Program to offer an alternative solution for trading and clearing of our EUR-denominated Repos within the EU27.”

Michael Cyrus, Head of Collateral Trading and FX at DekaBank

“The extension of the Eurex Partnership Program to Repo is a logical step for Eurex Clearing to complete the value proposition for interest rate products. DZ Bank AG as a longstanding client of Eurex Repo is therefore very pleased to be involved and be a partner in this initiative tool”

Oliver Deutscher, Head of Money Market and Repo Trading at DZ Bank AG
