

Publication categories and rules for circulars and Readiness Newsflashes

Eurex and Eurex Clearing are publishing important updates affecting its clients via circulars and Readiness Newsflashes:

- **Circulars:** distributed via e-mail to announce new initiatives and legally binding items
- **Readiness Newsflashes:** distributed frequently via e-mail to inform customers about updates of initiatives, availability of specifications, checklists, etc.

With the new harmonised subscription service, you will receive both publication categories with just one subscription of the relevant topic – helping you to always stay up to date on the topics of your choice, either by circular or Readiness Newsflash.

Previously, both of these publication categories were handled differently with respect to their distribution and subscriber lists.

Below you will find a table regarding the publication rules applied for receiving circulars or Readiness Newsflashes:
