Amendments to the Conditions for Trading and the Contract Specifications at Eurex Deutschland

1. Amendments to the Conditions for Trading at Eurex Deutschland

The Exchange Council of Eurex Deutschland has approved amendments to the Conditions for Trading at Eurex Deutschland on 28 March 2019. Among others, the rule changes in particular incorporate Eurex EnLight in a firmer way into the Eurex landscape, making it an on-exchange, off-book request for quote and execution mechanism.

The adjustments to the Conditions for Trading relate to “Part 4: Off-book Trading” which is amended and extended to reflect the changes required to include Eurex EnLight as a separate off-book request for quote and execution mechanism.

Deal negotiation and acceptance:

- The deal negotiation process on Eurex EnLight does not change with the rule changes.
- There will still be firm and indicative negotiation styles; a deal will only be considered as accepted once the requester has closed the relevant negotiation session on Eurex EnLight.

System entry and trade consummation:

- The acceptance will trigger the start of the first 15 minutes window to enter all relevant information into the Eurex system; the relevant information is called Eurex EnLight Offer Conditions.
- After this entry into the system, the second 15 minutes window will start, where counterparties will have to confirm the offer conditions.
- After this confirmation, the offer conditions will be matched and subsequently saved in the Eurex Exchange system, which triggers the release of trade consummation.

Trade confirmation:

- Immediately after consumption of the trade, the requester and respective responders receive a trade confirmation, generated by the Eurex Exchange system.
- Trades are indicated in the daily reports, generated by the Eurex Exchange system, and are designated as trades outside the central order book.

The amendments to the Conditions for Trading at Eurex Deutschland do not have an impact on the current operational workflow to negotiate and agree a deal on Eurex EnLight.

2. Amendments to the Contract Specifications for Futures Contracts and Options Contracts at Eurex Deutschland

The Management Board of Eurex Deutschland took the decision to adjust the Contract Specifications for Futures Contracts and Options Contracts at Eurex Deutschland (Contract Specifications) to reflect the respective changes to the Minimum Block Trade Sizes for Eurex EnLight and T7 Entry Service, as published in Eurex Clearing circular 022/19.

The adjustments to the Contract Specifications, as displayed in the attachment, will come into effect on 2 May 2019.

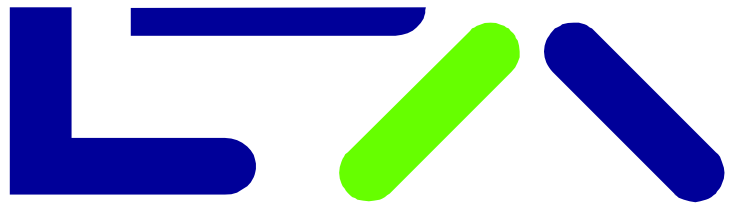

For options contracts on the EURO STOXX 50® Index (OESX), a maturity dependent minimum number of contracts will be introduced. Please be aware that the maturity dependent minimum number of contracts traded is only applicable to simple

instruments. Nevertheless, Eurex intends to introduce a maturity dependent minimum number of contracts traded also for complex instruments in the future.

* The group ID as well as the cash market ID shall be assigned by Eurex Deutschland according to the following table and shall, amongst other things, serve the purpose of determining a market place for the price of the share underlying the contract. If the reference market of the underlying share is changed within the Electronic Trading System of the Euronext Exchanges Euronext Brussels, Euronext Paris and Euronext Amsterdam, the Management Board of Eurex Deutschland may change the cash market-ID for a contract and thus determine a relevant cash market other than the cash market determined upon the introduction of the contract.

* Die Gruppenkennung sowie die Kassamarkt-ID werden von der Eurex Deutschland entsprechend der nachfolgenden Tabelle vergeben und dienen unter anderem der Festlegung eines Handelsplatzes für den Preis der dem Kontrakt zugrundeliegenden Aktie. Bei einem Wechsel des Referenzmarkts der zugrundeliegenden Aktie im Elektronischen Handelssystem innerhalb der Euronext-Börsen Euronext Brussels, Euronext Paris und Euronext Amsterdam kann die Geschäftsführung der Eurex Deutschland für einen Kontrakt die Kassamarkt-ID ändern und damit einen anderen als den bei der Einführung des Kontrakts festgelegten maßgeblichen Kassamarkt bestimmen.
