After the successful introduction of Co-Location 2.0 in June 2017, Eurex Frankfurt intends to allow the ordering of new connectivity to the old 10 Gbit/s Eurex Co-Location facility (hereafter referred to as Co-Location 1.0) until **31 December 2017.**

This includes the Eurex Enhanced Trading Interface (Eurex ETI), Eurex Enhanced Order Book Interface (Eurex EOBI), Eurex Enhanced Market Data Interface (Eurex EMDI) and Eurex Enhanced Market Data Interface & Eurex Enhanced Order Book Interface (Eurex EMDI & Eurex EOBI). After this date, it will only be possible to order the new 10 Gbit/s Co-Location 2.0 connectivity.

Existing Co-Location 1.0 connectivity can still be used in 2018. However, Eurex Frankfurt plans to decommission all existing connectivity to Co-Location 1.0 in the course of 2018. Further details regarding the decommissioning approach will be communicated in due time.
