Xetra Circular 065/12

To all Xetra® Members and Vendors

Recipients: Traders, Technical Contacts, Security Administrators, System Administrators, General

July 10, 2012

Xetra Release 13.0
Change of initial User Password

Dear Sir or Madam,

In conjunction with the introduction of Xetra Release 13.0 scheduled for November 26, 2012, we would like to remind you explicitly that changing the initial Xetra user password is required.

After the production start of Xetra Release 13.0, at first login, all users must change the initial password assigned by Xetra. All newly set up Xetra users and users already existing in Xetra, who still have the initial password assigned, will be prompted to change it. There will be no grace period. The changed password should not be identical with the initial Xetra password.

If you are still using the initial password assigned by Xetra, we kindly ask you to change the initial password now in order to ensure a smooth start of trading on the day of the release introduction in production. Please consider that all Xetra user IDs, i.e. also order routing IDs and other technical IDs, are affected by the mandatory change of initial password.

When changing the Xetra user password, please take into account that further interfaces may be affected, where the Xetra password has to be changed accordingly, e.g. for SAKI order routing to Xetra via Xentric Order. For changing the Xetra password in Xentric, please send an e-mail to xentric@deutsche-boerse.com first to make an appointment.

For any questions you may have, please call the Member Services & Admission Team at tel. +49-(0) 69-2 11-1 16 40.

Yours faithfully,

Maja Schwob

Holger Patt
