Summary:

Eurex Deutschland and Eurex Zürich AG (collectively: the Eurex Exchanges) are planning to make configuration changes for a total of 15 equity options/weekly options products to optimise access to the respective market data. For the affected products, the Eurex Exchanges will re-assign the partition IDs and the multicast addresses for the dissemination of market data. The following products are affected by the changes:

Equity Options	Weekly Options
ADSE	ODX1
AXAE	ODX2
FTEE	ODX4
INNE	ODX5
MUVE	OES1
NOAE	OES2
VVU	OES4
	OES5

The redistribution of the affected products to the new partitions and the reconfiguration of the multicast groups will become effective in the production environment as of 20 November 2017.

The existing port numbers will remain unchanged and the product reference data will be modified accordingly to reflect the new multicast addresses.
