EURIBOR Options: Extension of Market-Making scheme

The Management Board of Eurex Deutschland and the Executive Board of Eurex Zürich AG (collectively: the Eurex Exchanges) decided to extend the Market-Making scheme for EURIBOR Options (OEU3), one year- and two year-EURIBOR Mid-Curve Options (OEM1, OEM2) as well as three year- and four year-EURIBOR Mid-Curve Options (OEM3, OEM4). The Market-Making scheme will run from 2 October 2017 until 29 December 2017. The scheme is designed to ensure and further improve liquidity in the order book and in telephone Market-Making.

As a Market Maker, the Eurex Trading Participant undertakes to continually provide bid and ask prices (quotes) for a specified minimum number of contracts and in compliance with maximum spreads for a predefined period of time. For the scheme mentioned above, the Eurex Exchanges offer both “Quotation on Request” Market-Making and Permanent Market-Making. For “Quotation on Request” Market-Making, Participants can opt between order book and telephone quotation; where Permanent Market-Making is selected, order book quotation is obligatory.

Market Makers who fulfil their obligations will in return receive a refund of 80 to 95 percent of transaction fees for the contracts concluded by the Market Maker on M-accounts in EURIBOR Options. Please refer to attachment 2 for the detailed quote obligations and rebates.

For Participants who are interested in taking part in Market-Making, registration is mandatory.
