In Eurex Clearing circular 091/10, Eurex Clearing announced the introduction of the Advanced Risk Protection functionality.

Starting with Eurex Release 13.1 on **April 11, 2011**, the Eurex® system will be enhanced to allow intraday changes of the risk limit amounts. This was previously only possible for customers using the Enhanced Risk Solution.

As intraday updates will be possible for each customer using the Eurex® system after the launch of Eurex Release 13.1, the described process in Eurex Clearing circular 091/10 to reactivate stopped Members without using the Enhanced Risk Solution will no longer be supported by Eurex Clearing.
