Position limits apply only to long positions in the front month contracts of the products concerned. Reporting limits will be valid from **28 February 2017 after close of trading to 3 March 2017 after close of trading**.

Exceeding the reporting limits will cause the Eurex Exchanges to request information from the Exchange Participant. Position limits will be valid from **6 March 2017**, **start of trading**, until expiration of the March contract on **8 March 2017**. Long positions in March 2017 contracts must therefore be within the prescribed limits at start of trading on 6 March 2017.

The limits will constantly be monitored intraday by the Trading Surveillance Office of Eurex Deutschland. Immediate position adjustments should be made by using the Trade Adjustment function (Open/Close Adjustment) instead of the Position Close-Out, in order to avoid such transactions being subject to late closing fees.

If the position limits are exceeded, the respective Participants will be requested by Eurex Deutschland or Eurex Zürich to specify a Eurex user ID which can be used by the Eurex Exchanges to undo the exceeding of the position limits.
