Summary:

On April 23, 2012, the annual general meeting of the company Azimut Holding SpA will decide, amongst other things, to pay a dividend of EUR 0.25 per share which includes EUR 0.15 as additional component, as stated by the company.

The additional component will result in an adjustment of the existing series of the Eurex option on shares of Azimut Holding SpA (HDB) and the Eurex stock futures contract on shares of Azimut Holding SpA (HDBG), as already published in the **Market Supervision Messages** window on March 8, 2012.

Ex date will be **May 21, 2012**.

This circular contains a description of the adjustment procedure.

Azimut Holding SpA: Additional Component

Measure:
Distribution of additional component of EUR 0.15 on shares of the company Azimut Holding SpA.

Last Cum Trading Day:
May 18, 2012

Ex Date:
May 21, 2012

Affected Products:
HDB, HDBG

Reference to underlying Rules & Regulations:
Contract Specifications for Futures Contracts and Options Contracts at Eurex Deutschland and Eurex Zürich, sections 1.6.7 (2) and 2.6.10.1 (2).

Adjustment of ISIN:
The ISIN of the Azimut Holding SpA share (IT0003261697) will remain unchanged.

Procedure:

Determination of Adjustment Factor (R-Factor)

The closing auction price of the Azimut Holding SpA share at Borsa Italiana on the last cum trading day will be the basis for determination of the R-factor. First, the price will be reduced by the regular dividend. The price resulting from this will serve for determination of the adjustment factor (R-factor).

S1	Closing auction price of the Azimut Holding SpA share
S2	S1 minus regular dividend
S3	S2 minus additional component
R-factor	S3 / S2

Options

1. Adjustment of Strike Prices and Contract Sizes

All existing strike prices will be multiplied by the R-factor.

The contract size will be divided by the R-factor.

The version number of the existing series will be increased by 1.

Adjusted strike prices and contract sizes will be published via the **Market Supervision Messages** window immediately after close of trading on the last cum trading day.

New series with standard contract size 500 and version number 0 will be introduced effective ex-date.

All existing orders and quotes will be deleted after close of trading on the last cum trading day.

The adjustment also refers to existing positions in OTC Flexible Options.

If there is no open interest after close of trading on the last cum trading day, no adjustment will be made.

2. Exercises

Generally, upon exercise of an adjusted series, cash payment will be made for the fractional part of the new contract size.

For adjusted series as of version 2, deviations in the delivery process might occur. In report RPTTA111 (All Active/Inactive Series), those parts of the contract size are displayed for which cash settlement takes place upon exercise of an adjusted series.

Futures

1. Adjustment of Contract Size and Variation Margin

The adjustment will be done by means of the same R-factor as for the options.

To adjust the calculation of the variation margin of the following exchange trading day, settlement prices of the last cum trading day will be multiplied by the R-factor.

The new contract size will be calculated as follows:

Contract size new = contract size old / R-factor

All outstanding orders and quotes will be deleted after close of trading on the last cum trading day.

The adjustment also refers to existing positions in OTC Flexible Futures.

2. Introduction of a new Contract

A new futures contract will be introduced on Azimut Holding SpA shares with product code HDBH and standard contract size 1000.

The exact introduction date will be published via the **Market Supervision Messages** window.

As soon as the new contract is available for trading and there are no more series with open interest in the original contract on Azimut Holding SpA shares (HDBG), trading in this contract will be put on “HALT” and finally discontinued.

Furthermore, as of May 21, 2012, no new contract months will be introduced in the original contract (HDBG). Existing contract months without open interest will be suspended from trading.

If there is no open interest for the original contract on Azimut Holding SpA (HDBG) after close of trading on the last cum trading day, no adjustment will be made and no new contract will be introduced.
