Attachment:
Updated Designated Market-Making scheme for Single Stock Futures

Summary:

1. Due to the recomposition of the EURO STOXX® 50 index which took place on 18 March 2013, the Market-Making packages and Designated Market-Making packages related to the index will be changed as follows, effective **2 April 2013**:

   Options on EADS (EAD) will replace options on Nokia (NOA3). Futures on EADS (EADF) will replace Futures on Nokia (NO3F) in the Designated Market-Making package for Single Stock Futures (ES50).

2. Also effective **2 April 2013**, options on MLP (MLP) will leave the German AMM package. In future, only Permanent Market-Making (PMM) and Regular Market-Making (RMM) will be available for options on MLP.

Market-Making: Change in quote obligations

The changes in the EURO STOXX® 50 will be applied to the Eurex Advanced Market-Making for options and Designated Market-Making in Futures on 2 April 2013. The removal of MLP will apply to the German Advanced Market-Making package for options only.

1. Advanced Market-Making packages

Product	Product code	Spread class	Minimum quote size (contracts)		Number of expirations to be quoted for PMM/AMM;	AMM Package ID
			RMM	AMM/ PMM	the first	
Options on						
EURO STOXX 50® Components						
NOKIA	NOA3	1	n/a	200	8	~~ESX50~~ SC
EADS	EAD	2	n/a	20	6	ESX50 FR
Options on

22 March 2013

Single Stock Futures: Quotation Requirements for Advanced Designated Market-Making

1. Advanced Designated Market-Making Fees

Upon fulfillment of quotation requirements on a monthly basis, Eurex Clearing will reimburse part of the transaction fees for all trades in SSFs in the respective package concluded by DMMs on the M-account. Reimbursement of transaction fees will amount in each case to 80 percent for transactions in the electronic order book and to 60 percent for transactions in OTC Block Trading.

2. Quotation Requirements

Designated Market Makers commit to quote permanently a specified amount of Single Stock Futures in the respective package (no. 2.1). The quotes have to represent a minimum number of contracts (no. 2.3) quoted with a maximum bid-ask spread (no. 2.2).

In addition, quotation requirements for quotation period and maturities to be quoted are as follows:

- Quotation period: At least 80 percent of the daily trading hours between 09:00 and 17:30 CET on a monthly average.
- Maturities: a) The front month contract only
  b) In order to facilitate roll activities, the second month has to be quoted in the expiration week of the current front month

The quotation requirements will be reviewed on a quarterly basis and are subject to change.

2.1 Quotation Packages and Number of Exceptions

Eight quotation packages will be offered for Advanced Designated Market-Making. Quotation requirements for a package will be considered fulfilled, if quotation requirements were observed for all products contained, whereby a certain number of exceptions per month will be allowed for each package.

Package	Package ID	Eurex products contained	Number of Package components	Number of monthly exceptions
Euro STOXX 50®	ES50	All SSFs on components of the Euro STOXX 50® index	50	10
German	DE	All SSFs on components of the DAX 30® index	30	6
French	FR	All SSFs on components of the CAC40® index	40	10
Euro STOXX 50®	ESX50/FR/DE	All SSFs on components of the Euro STOXX 50®, DAX® and CAC40® index	88	26
Italian	IT	All SSFs on components of the FTSE MIB® index	31	12
Dutch	NL	All SSFs on components of the AEX® index	23	17

Package	Package ID	Eurex products contained	Number of Package components	Number of monthly exceptions
Spanish	ES	All SSFs on components of the IBEX 35® index	30	12
Swiss	CH	All SSFs on components of the SMI® index	20	4

2.2 Spread classes

Spread class	Bid prices up to (EUR/CHF)	Maximum spreads (EUR/CHF)
1	≤ 50 > 50	0.05 0.10%
2	≤ 50 > 50	0.10 0.20%

2.3 List of minimum quote size and spread class assignment

If due to a corporate action in one of the underlying instruments a successor product is admitted to trading with a standard contract size, the successor product will become part of the quotation requirements with effect from the first trading day of the next calendar month. The preceding contract will not be part of the quotation requirements any longer after the end of the month.

If one of the underlying instruments leaves any of the indexes covered by the packages the respective Single Stock Future will be replaced by the Single Stock Future on the underlying instrument entering with effect from the first trading day of the next calendar month. The Single Stock Future on the underlying instrument leaving the index has to be quoted until the end of the month.
