Summary:

The Enhanced Confirmation Solution interface has been updated in order to address two minor issues. The software changes outlined in this circular will be made available in the Eurex simulation environment on Tuesday, **December 14, 2010** and will be active in the Eurex production environment from Monday, **December 20, 2010** onwards.

The interface documentation has been updated to reflect the software changes and is available for download in the Member Section of the Eurex website under the following path:

www.eurexchange.com > Member Section > Releases > Eurex 13.0 > Interfaces > Enhanced Confirmation Solution

Alternatively click the following link:

Eurex Release 13.0: Update of Enhanced Confirmation Solution Interface

The Enhanced Confirmation Solution interface has been updated in order to address two minor issues. For detailed information please refer to the updated Enhanced Confirmation Solution Interface Specification available for download in the Member Section of the Eurex website under the path:

www.eurexchange.com > Member Section > Releases > Eurex 13.0 > Interfaces > Enhanced Confirmation Solution

Alternatively click the following link:

https://www.eurexchange.com/members/releases/eurex13/interfaces_enhancedconf_en.html

Please note: This link to the Member Section also requires a valid login (user name and password).

Below is a summary of the changes:

1. Configuration ID

The configuration ID has been changed to **E130.56.01**.

2. Change of Cardinalities

In the *TM Event Notification* Transport Message Layout, the following cardinalities have been changed:

- *midGrp*: changed from 12 to 9.
- *eventNotifData*: changed from 6 to 9.

In the *(User) Retransmission* message flow, all cardinalities of the *Order Status Notification* message have been changed from 8 to 9 (see chapter 2.7 of the updated Enhanced Confirmation Solution Interface Specification).

3. Negative Amounts in Field Premium Amount

An issue with negative premium amounts in the *Trade Notification* has been fixed, the values are now displayed correctly.

4. Introduction of Software Changes

The software changes will be made available in the Eurex simulation environment on Tuesday, December 14, 2010 and will be active in the Eurex production environment from Monday, December 20, 2010 onwards.
