Ü All departments	none

Due to delayed implementation of the Streamgateway software by various Clearvision users, the Clearvision user group requested Eurex to offer additional testing possibilities.

Although Eurex and the majority of Members confirmed their readiness, the Management Boards of the Eurex Exchanges and the Executive Board of Eurex Clearing AG decided to postpone production start of Eurex Release 13.0 and CCP Release 6.0 by one week to **November 15, 2010** in order to address these requests.

Therefore, the production launch procedure for both releases will be postponed for one week, i.e. the connection tests will take place on Saturday, **November 13, 2010.**

We apologize for the inconvenience this puts on the majority of our Members but believe this to be a prudent step to ensure orderly markets.
