Eurex Clearing circular 042/17 announced that the support for AMQP versions 0-10 on the Eurex Clearing FIXML Interface will be discontinued and will be replaced by support for AMQP version 1.0 only.

In order to allow participants additional time to test and achieve production readiness, Eurex Clearing has decided to move the production go-live date of this change from 25 September 2017 to **4 December 2017.**

The simulation which has been running since 31 August 2017 is not affected.

Clearing Members and ISVs using the interface should test their applications during the simulation period and consider upgrading the AMQP libraries used in their software to the latest available versions.

After the upgrade, the Eurex Clearing AMQP broker will not allow the creation of temporary response queues. Additionally, software used by the clients must be updated in order to use AMQP 1.0.

Volumes A, B and E of the Eurex Clearing Messaging Interface Connectivity documentation have been updated accordingly and can be found on the Eurex Clearing website www.eurexclearing.com under the following link:

Technology > Eurex Clearing classic system > System documentation > Eurex Clearing Interfaces

For further information, please contact your Technical Key Account Manager using your VIP number or send an e-mail to: clearing.services-admission@deutsche-boerse.com.
