➲ All departments	none

As previously announced in Eurex circular 247/13, due to an issue with the calculation of ordered volume, the following daily reports were re-calculated for the business days between 24 October 2013 and 21 November 2013:

- TD981: Month-to-Date Order-to-Trade Ratio
- CB069: Transaction Report

Distribution of the corrected reports via the Common Report Engine will take place during the course of the day on **9 December 2013**.

The reports will be transferred to the special *restore* directory which is located on the same level as the business day directories of the participant area and has no further subdirectory structure.

The directory and the reports will be available on the Common Report Engine for a total of 20 days. After this period they will be deleted.
