New series with standard contract size 100 and version number 0 will be introduced effective the ex date.

All existing orders and quotes will be deleted after close of trading on the last cum trading day.

The adjustment also refers to existing positions in OTC Flexible Options.

2. Exercises

Upon exercise of an adjusted series cash settlement will be made for the fractional part of the new contract size.

For exercise of adjusted series as of version 2, differences may occur in the delivery process. In report RPTTA111 (All Active/All Inactive Series), the parts of the contract size are listed for which cash settlement will take place in case of exercise of an adjusted series.

Futures

1. Adjustment of contract size and variation margin

The new contract size will be calculated as follows:

Contract size old 100 / R-factor 0.50000000 = 200,0000 contract size new

To adjust the calculation of the variation margin of the following exchange trading day, settlement prices of the last cum trading day will be multiplied by the R-factor.

All outstanding orders and quotes will be deleted after close of trading on the last cum trading day.

The adjustment also refers to existing positions in OTC Flexible Futures.

2. Introduction of a new contract

A new stock futures contract on Nutreco will be introduced with standard contract size 100 and new product code NU3G.

The exact introduction date will be announced in a separate Eurex circular.

As soon as the new contract is available for trading and there are no more contract months with open interest in the original contract on Nutreco (NU3F) trading in this contract will be set on “HALT” and discontinued.

Also, as of 2 May 2013, no new contract months will be introduced in the old contract (NU3F). Existing contract months without open interest will be suspended from trading.

If there is no open interest in the original contract on Nutreco shares (NU3F) on the last cum trading day after the close of trading, no adjustment and no introduction of a new contract will take place.
