Eurex Clearing FIXML Interface: Discontinued support for AMQP versions 0-10

Contact: clearing.services-admission@deutsche-boerse.com

Content may be most important for:	**Attachments:**
➲ All departments	none

Eurex Clearing will discontinue the support for FIXML Interfaces AMQP versions 0-10. Going forward, the only supported protocol will be AMQP 1.0.

Clearing Members and ISVs using the interface should test their applications during the simulation period and consider upgrading the AMQP libraries used in their software to the latest available versions.

In the simulation environment, support for AMQP versions 0-10 will be discontinued as of start of business on **31 August 2017**. In the production environment, support will be discontinued as of start of business on **25 September 2017**.

After the upgrade, the Eurex Clearing AMQP broker will not allow the creation of temporary response queues. Additionally, client software must be updated in order to use AMQP 1.0.

Volumes A, B and E of the Eurex Clearing Messaging Interface Connectivity documentation have been updated accordingly and can be found on the Eurex Clearing website www.eurexclearing.com under the following path:

Technology > Eurex Clearing classic system > System documentation > Eurex Clearing Interfaces

For further information, please contact your Technical Key Account Manager or clearing.services-admission@deutsche-boerse.com.
