Summary:

With the introduction of Eurex Exchange's T7 Release 4.0 in production on 21 November 2016, the links leading to the Trader and Admin GUIs will change. The change will follow the same details which were already introduced in the T7 Release 4.0 simulation from 23 September 2016.

The change will be implemented as part of the conversion of Eurex T7 production to Release 4.0. The new links will have to be used beginning with the T7 Release 4.0 connection test on **Saturday, 19 November 2016**.

The change is only relevant for users of the T7 Trader or Admin GUI who launch the GUIs via an individually created local bookmark, link or desktop shortcut. These local bookmarks, links or desktop shortcuts will have to be adjusted, as described in this circular.

Users who are launching the T7 Trader or Admin GUI via the regular GUI landing pages (i.e. http://webgui.eurexchange.com), which is recommended by Eurex, do not have to change anything.

Eurex Exchange's T7 Release 4.0: Adjustment of links to launch the Trader and Admin GUIs

With the introduction of Eurex Exchange's T7 Release 4.0 in production on 21 November 2016, the links leading to the T7 Trader and Admin GUIs will change. The change affects the URLs to the JNLP files, which launch the T7 Trader and Admin GUIs.

The change affects all links for Internet and leased line access, and both regular links as well as FQDN links will change. For all these links the string "et7" will be replaced by the string "eurex".

The change will be implemented as part of the conversion of Eurex T7 production to Release 4.0. The new links will have to be used beginning with the T7 Release 4.0 connection test on Saturday, 19 November 2016.

1. Scope of the change and affected users

This change is only in the URLs to the JNLP files. It is only relevant for users who have themselves created local bookmarks, links, or desktop shortcuts to the JNLP files. Those local bookmarks, links or desktop shortcuts need to be changed as described in this circular.

The change will be implemented in production according to the set-up in the T7 Release 4.0 simulation which has been available since 23 September 2016.

Users who launch the T7 Trader or Admin GUI via the landing pages, which is recommended by Eurex, do not have to change anything.

The landing pages remain on the existing URLs:

Internet http://webgui.eurexchange.com

Leased line http://webgui.vpn.eurexchange.com

Furthermore, there is no change to any network IP addresses involved. All information listed in the document "Access to Eurex Exchange's T7, Eurex Clearing and Eurex Repo's F7 - Network Configuration Guide" remains valid.

The document is available on the Eurex website www.eurexchange.com under the link:

Technology > Eurex Exchange's T7 > System documentation > Release 4.0 > Network Access

2. Examples

Example 1: Eurex T7 Release 4.0 production Trader GUI, Internet access

The T7 Release 3.0 link is:

http://webgui.eurexchange.com/production/et7-trader/et7-trader.jnlp

With the introduction of T7 Release 4.0 in production, the link will change to:

http://webgui.eurexchange.com/production/eurex-trader/eurex-trader.jnlp

Example 2: Eurex T7 Release 4.0 production Admin GUI, leased line access

The T7 Release 3.0 link is:

http://webgui.vpn.eurexchange.com/production/et7-admin/et7-admin.jnlp

With the introduction of T7 Release 4.0 in production, the link will change to:

http://webgui.vpn.eurexchange.com/production/eurex-admin/eurex-admin.jnlp

Example 3: Eurex T7 Release 4.0 production Trader GUI, leased line access, FQDN version

The T7 Release 3.0 link is:

http://webgui.vpn.eurexchange.com/production/et7-trader/et7-trader-fqdn.jnlp

With the introduction of T7 Release 4.0 in production the link will change to:

http://webgui.vpn.eurexchange.com/production/eurex-trader/eurex-trader-fqdn.jnlp

3. Contact

If you have any questions or require further information, please contact your Technical Key Account Manager using your VIP number or via e-mail to: cts@deutsche-boerse.com.
