Subscription price:
EUR 0.45

Last cum trading day:
5 February 2016

Ex date:
8 February 2016

Start of subscription period:
8 February 2016

Affected product:
NYR

Reference to underlying Rules & Regulations:
Contract Specifications for Futures Contracts and Options Contracts at Eurex Deutschland and Eurex Zürich, section 2.6.10.1 (3)

ISIN:
The ISIN of the Nyrstar NV share (BE0003876936) will remain unchanged.

Procedure

1. Determination of adjustment factor (R-factor)

The official closing auction price of the Nyrstar NV share at Euronext Brussels on the last cum trading day will be the basis for determination of the R-factor.

The R-factor will be determined with eight decimal places. It is calculated in the following way:

R = ((number of existing shares / number of new shares) * (1 - (issue price of new shares / closing auction price))) + (issue price of new shares / closing auction price)

2. Adjustment of strike prices and contract sizes

Existing strike prices will be multiplied by the R-factor.

The contract size will be divided by the R-factor.

The version number of existing series will be increased by 1.

The adjusted strike prices and contract sizes will be published via the **Market Supervision Messages** window immediately after close of trading on the last cum trading day.

New series with standard contract size 100 and version number 0 will be introduced effective the ex date.

All existing orders and quotes will be deleted after close of trading on the last cum trading day.

The adjustment also refers to existing positions in TES Flexible Options.

3. Exercises

In general, upon exercise of an adjusted series cash settlement will be made for the fractional part of the new contract size. For exercise of adjusted series as of version 2, differences may occur in the delivery process. In report RPTTA111 (All Active/Inactive Series), the parts of the contract size are listed for which cash settlement will take place in case of exercise of an adjusted series.

Please note: An adjustment will only take place of the subscription right has a positive value.
