For the avoidance of doubt:

Where the first expiry in the contract series is December 2016 and the permissible percentage spread is noted as 20 percent for that expiry - then to fulfil the obligations the offer price must be no greater than the bid price plus 20 percent of that bid price.

For example: If the quoted bid is 3.50 and the permissible percentage spread is 20 percent then the offer price must be no greater than 4.20.

If due to a corporate action a successor product in one of the underlying instruments is admitted for trading with a standard contract size, the successor product will become part of the quotation requirements with effect from the first trading day of the next calendar month. This shall also apply if any index component is changed.

Die Zuordnung des Entgeltes eines einzelnen Aktiendividenden-Futures basiert auf der für den Aktiendividenden-Future maßgeblichen Dividende am jeweiligen Stichtag mit Wirksamkeit zum 1. September jeden Jahres und wird jeweils durch Rundschreiben bekannt gegeben. Stichtag ist der letzte Handelstag im Juli eines jeden Jahres.

Wird in einem Aktiendividenden-Future aufgrund einer Kapitalmaßnahme in der zugrundeliegenden Aktie ein Nachfolgeprodukt zum Handel zugelassen, gelten die dem Vorgängerprodukt zugewiesene Transaktionsentgelte auch für das Nachfolgeprodukt.
