Eurex Clearing will discontinue the support for FpML, TradeEntry API and Margin Calculator Interfaces AMQP versions 0-10. Going forward, the only supported protocol will be AMQP 1.0.

In the simulation environment, support for AMQP 0-10 will be discontinued as of start of business on **9 October 2017** and in the production environment as of start of business on **4 December 2017**.

Clearing Members and ISVs using the interface should test their applications during the simulation period and consider upgrading the AMQP libraries used in their software to the latest available versions.

After the upgrade, the Eurex Clearing AMQP broker will not allow creation of temporary response queues. Additionally, client software must be updated in order to use AMQP 1.0.

Volumes A, B and E of the Eurex Clearing Messaging Interface Connectivity documentation have been updated accordingly and can be found on the Eurex Clearing website www.eurexclearing.com under the following path:

Technology > Eurex Clearing classic system > System documentation > Eurex Clearing Interfaces

All OTC technical documents (Volume 3) are available for download in the Eurex Clearing Member Section under the following path:

Technology > EurexOTC Clear > OTC Release […] > Eurex Clearing FpML Interfaces
