Eurex is pleased to inform that futures on the MDAX® Index can be directly traded with immediate effect by Eurex participants and investors with business location in the United States**.**

On March 14, 2006, the U.S. Commodity Futures Trading Commission (CFTC) approved Eurex Deutschland's application "Request for No-Action Relief". As a result, futures on the MDAX® Index may be offered and sold in the U.S.

The mid cap index MDAX® comprises equities of 50 companies from traditional sectors listed in the Prime Standard segment. MDAX® components rank immediately below the enterprises comprised in the blue chip index DAX® as far as order book turnover and market capitalization are concerned. For detailed information on the MDAX® Index please refer to Deutsche Börse website under the path:
