With the present circular Eurex would like to advise those customers who use the Sun Solaris 10 operating system to apply Hardware Revision 01/06, since any older Hardware Revision might cause problems.

If customers still use Sun Solaris Hardware Revision 03/05, Eurex recommends to proceed as follows:

- Installation of a patch for the Patch Utility which is required to load software patches (for details please see Patch 119254-10: SunOS 5.10: Install and Patch Utilities Patch; or a more recent version)
- Installation of the Patch Utility after having updated it with above patch.

Details are provided with the following link:

**http://docs.sun.com/app/docs/doc/817-0547/6mgbdbsmb?a=view**

However, as under Solaris 10 Hardware Revision 03/05 this procedure might still lead to problems, we recommend in principle to use hardware Revision 01/06.

Of course, Eurex will continue to support Solaris 10 Hardware Revision 03/05 or higher.

Should you require further details, please do not hesitate to contact Eurex Technical Helpdesk at tel. +49-69-211-1 12 00, fax +49-69-211-1 12 01 and e-mail: eurex-help@deutsche-boerse.com.
