Content may be most important for:	**Attachments:**
Ü All departments	none

Starting 3 September 2012, trading participants and clearing members have been able to access a new public area on the Common Report Engine where non-transactional and non-participant-specific reports and files are published.

In order to accelerate their availability, the Common Report Engine now provides the below-listed files and reports in the public area:

- FPICPARA (Theoretical Price File)
- FPICPARM (Theoretical Price File)
- FPICTHED (Theoretical Price File)
- FPICTHEF (Theoretical Price File)
- FPICTHEU (Theoretical Price File)
- FTHCPARM (Theoretical Price File)
- CC031 (Theoretical Values II)
- CC033 (Theoretical Values III)
- CC034 (Theoretical Prices)
- TA111 (All Active/Inactive Series)

Furthermore, these reports and files will still be available in the participant-specific area during a transition period until **4 February 2013**. After this date, they will only be available in the public area of the Common Report Engine.

To access the Common Report Engine public area, participants must use port 2221 instead of port 2222. For further documentation about accessing the Common Report Engine, please refer to the Common Report Engine - User Guide published on the Eurex website www.eurexchange.com under:
