Change of Strike Price Display for Options on Sulzer AG (SUN) Stocks

Contact: Functional Helpdesk Equity Products, tel. +49-69-211-1 12 10

Content may be most important for:	**Attachments:**
➲ Front Office / Trading ➲ Middle + Back Office ➲ IT / System Administration	None

In the Eurex® system, only options series with strike prices with a maximum of five digits can be processed. Options series with strike prices of 1,000 and higher can therefore not be introduced based on a display of two decimal places.

Consequently, the display of strike prices for the product SUN needs to be reduced to one decimal place.

Effective **January 16, 2006**, the display of strike prices of options on the Sulzer AG (SUN) stock will be changed from two decimal places to one decimal place.

If the development of the price of the Sulzer AG stock should render it necessary to carry out the measure before January 16, 2006, we will inform you via the **Market Supervision Messages** window.

Due to the change of the display of strike prices, trading in the LEPO series of the options on SUN with the strike price of 0.01 will not be possible on both January 13, 2006 and January 16, 2006.

Should you have any questions, please contact our Functional Helpdesk Equity Products at tel. +49-69-211-1 12 10.
