Single Stock Futures: Quotation Requirements for Designated Market-Making

1. Designated Market-Making Fees:

Upon fulfilment of quotation requirements on a monthly basis, Eurex Clearing AG will reimburse part of transaction fees for all trades in SSFs in the respective package concluded by DMMs on the M-account. Reimbursement of transaction fees will amount in each case to 80 percent for transactions in the electronic order book and to 60 percent for OTC transactions.

2. Quotation Requirements:

Designated Market Makers commit to quote permanently a specified amount of Single Stock Futures in the respective package (§ 2.1). The quotes have to represent a minimum number of contracts (§ 2.3) quoted with a maximum bid-ask spread (§ 2.2).

In addition, quotation requirements for quotation period and maturities to be quoted are as follows:

- Quotation period: At least 80 percent of the daily trading hours between 09:00 and 17:30 CET on a monthly average.
- Maturities: Current front month contract

The quotation requirements will be reviewed on a quarterly basis and are subject to change.

2.1 Quotation Packages and Number of Exceptions

Seven quotation packages will be offered for Designated Market-Making. Quotation requirements for a package will be considered fulfilled, if the quotation requirements are fulfilled for all products contained, whereby a certain number of exceptions per month will be allowed for each package.
