Summary:

In Eurex Clearing circular 065/13, Eurex Clearing provided further details on the decommissioning of the MISS infrastructure and VALUES API in December 2013.

The timeline for the major steps leading up to the complete decommissioning of VALUES API and the MISS infrastructure will be as follows:

- **1 October 2013:** Frozen zone for Eurex MISS administration in the Member Section. As of this date, it will not be possible to order, change or delete any Eurex MISSes.
- **13 November 2013:** VALUES API and the MISS infrastructure will be decommissioned in Eurex simulation.
- **10 December 2013:** VALUES API and the MISS infrastructure will be decommissioned in Eurex production.

Please note, that with the decommissioning of VALUES API as of 10 December 2013, system access via Eurex Clearing's FIXML Interface will be stipulated as an admission criteria for Eurex Clearing's Clearing Members.

Timeline for the decommissioning of VALUES API and the MISS infrastructure

In Eurex Clearing circular 065/13, Eurex Clearing provided further details on the decommissioning of the MISS infrastructure and VALUES API in December 2013.

The timeline for the major steps leading up to the complete decommissioning of VALUES API and the MISS infrastructure will be as follows:

- 1 October 2013: Frozen zone for Eurex MISS administration in the Member Section. As of this date, it will not be possible to order, change or delete any Eurex MISSes.
- 13 November 2013: VALUES API and the MISS infrastructure will be decommissioned in Eurex simulation.
- 10 December 2013: VALUES API and the MISS infrastructure will be decommissioned in Eurex production.

Please note: All Clearing Members of all markets cleared by Eurex Clearing and Trading Participants of Eurex Exchange must migrate applications from VALUES API to FIXML and will require access to the Eurex Clearing GUI @X-tract via WebTrading by 10 December 2013 at the latest.

To facilitate a smooth transition and ensure sufficient contingency, Eurex Clearing strongly recommends that Clearing Members and Trading Participants perform the final migration of VALUES API and the MISS infrastructure as early as possible.

Please also note, that with the decommissioning of VALUES API as of 10 December 2013, system access via Eurex Clearing’s FIXML Interface will be stipulated as an admission criteria for Eurex Clearing's Clearing Members.
