The Management Board of Eurex Deutschland and the Executive Board of Eurex Zürich AG decided to extend the Market-Making scheme in Weekly Options on the DAX® and EURO STOXX 50® as follows:

The existing scheme will be extended for another year from **1 January 2014** until **31 December 2014**, with minor changes.

The change compared to the existing scheme is the minimum quotation size in Weekly Options on the DAX®. It will be decreased to 100 contracts in the front week (previously 200) and to 50 contracts in the following week (previously 100). Market-Making rebates and the revenue sharing of 15 percent, distributed to a maximum of five Market Makers, will remain unchanged.

An application for Market-Making in Weekly Options is not necessary.
