Summary:

On 3 June 2013, the annual general meeting of the company Ebro Foods decided to pay an extraordinary interim dividend of EUR 0.12 per share.

The extraordinary interim dividend will result in an adjustment of the Eurex Single Stock Futures contract on shares of Ebro Foods (AZUK).

Ex date will be **10 December 2013**.

This circular contains a description of the adjustment procedure.

Ebro Foods: Extraordinary interim dividend

Measure:
Distribution of extraordinary interim dividend of EUR 0.12 on shares of the company Ebro Foods

Last cum trading day:
9 December 2013

Ex date:
10 December 2013

Affected product:
AZUK

Reference to underlying Rules & Regulations:
Contract Specifications for Futures Contracts and Options Contracts at Eurex Deutschland and Eurex Zürich, section 1.6.7 (2)

Adjustment of ISIN:
The ISIN of the Ebro Foods share (ES0112501012) will remain unchanged.

Procedure:

1. Determination of adjustment factor (R-Factor)

The closing auction price of the Ebro Foods share at Bolsa de Madrid on the last cum trading day will be the basis for determination of the R-factor.

S1	Closing auction price of the Ebro Foods share
S2	S1 minus extraordinary interim dividend
R-factor	S2 / S1

2. Adjustment of contract size and variation margin

To adjust the calculation of the variation margin of the following exchange trading day, settlement prices of the last cum trading day will be multiplied by the R-factor.

The new contract size will be calculated as follows:

Contract size new = contract size old / R-factor

All existing orders and quotes will be deleted after close of trading on the last cum trading day.

The adjustment also refers to existing positions in OTC Flexible Futures.

3. Introduction of a new contract

A new contract will be introduced on Ebro Foods shares with standard contract size 100 and product code AZUL.

The exact introduction date will be published via a separate Eurex circular.

As soon as the new contract is available for trading and there are no more series with open interest in the original contract on Ebro Foods shares (AZUK), trading in this contract will be put on “HALT” and finally discontinued.

Furthermore, no new contract months will be introduced in the original contract (AZUK). Existing contract months without open interest will be suspended from trading.

If there is no open interest on the last cum trading day after close of trading in the original contract on Ebro Foods shares (AZUK), no adjustment will be made and no new contract will be introduced.
