

Eurex Quotation Parameters for Regulatory Market Making

Version 1.2.21, valid as of 7th December 2021

Procedure

The maximum bid-ask range according to Articles 1 and 2 of Commission Delegated Regulation (EU) 2017/578 is determined by the Management Board of Eurex Deutschland (see section 53 of Eurex Exchange Rules and sections 1.1.d. and 1.2 of Eurex Circular 102/17). These are set as follows:

- a) For products where schemes (Product Specific Supplements) already exist, the maximum spread requirement of the Basis Building Block is used. If there are several Basis Building Blocks per product, the smallest maximum spread value is used.
- b) For products where schemes do not exist, the maximum spread requirements are set as outlined in the tables below.
- ~~c) For Fixed Income Futures where schemes only exist during extended trading hours (Asian trading hours) (see Product Specific Supplement "Equity Index 40")
 - ~~o approach a) is used during extended trading hours.~~
 - ~~o approach b) is used during regular trading hours.~~~~
- ~~d) For Equity Index Futures where schemes only exist during extended trading hours (Asian trading hours) (see Product Specific Supplement "Equity Index 40") and for Mini-DAX[®] Futures (FDXM) approach a) is used, whereas during extended trading hours the spreads for extended trading hours are applied (see Product Specific Supplement "Equity Index 40"), and during regular trading hours the spreads for regular trading hours are applied (see Product Specific Supplement "Equity Index 13" and 'Other 01').~~
- c) For products where schemes only exist during extended trading hours (the schemes can be identified by the prefix "THX" in the name)
 - o approach a) is used during extended trading hours.
 - o approach b) is used during regular trading hours.
- d) For products where schemes exist during extended trading hours and regular trading hours approach a) is used. During extended trading hours the smallest spread value from all existing schemes is applied and during regular trading hours the spreads for regular trading hours are applied.

The size requirement as well as other requirements apply as outlined in Articles 1 and 2 of Commission Delegated Regulation (EU) 2017/578.

Maximum Spread Parameters

Product Type / Product	Name	Legal Product Group	Spread Class*	Spread Absolute**	Spread Percent**	Spread Ticks**
FBND
