Summary:

After close of trading on Wednesday, 13 February, 2002, Production Update Kit 1 for Eurex Release 5.0 will be distributed to the production-specific environment of all members. System administrators must ensure that sufficient storage capacity is available for the transfer in the production environment, and that the production environment is reachable on Wednesday evening.

The update kit contains a number of improvements including the following:

- **Clearing GUI**: correction of display errors in the “Position Adjustment – Close Out” and “Cash Account Detail Overview” windows.
- **Trading GUI**: Avoidance of extremely rare duplicated display of Broadcasts in the “Own Order Overview” window, and a large reduction in transactions on accessing the “Market Supervision Messages“ window
- Removal of delays during login, which, in very rare circumstances, could lead to a deadlock of the GUI when dealing with large trader profiles

Update Kit 1 is a mandatory update which must be installed by 15 February, 2002 at the latest. The update kit should therefore be installed as soon as possible.

As announced in Circular 106/01, the update kit will only be sent to members’ Report Nodes. Additionally, the kit will be provided for download from the members’ section of the Eurex web-site.

Distribution of Production Update Kit 1 for Eurex Release 5.0 on 13.02.2002

After close of trading on Wednesday, 13 February, 2002 Production Update Kit 1 for Eurex Release 5.0 will be distributed to the production-specific environment of all members. The installation instructions will be sent as a 'Read-me' file with the software transfer, as usual. For @Eurex customers, the production update kit will be provided on the Eurex web-site.

The update kit contains a number of improvements including the following:

1. **Clearing GUI @X-tract:**
   - Correct display of PrevZCQ and CurrZCQ in the "Position Adjustment - Close Out " window
   - Corrected sort order in "Cash Account Detail Overview"
2. **Trading GUI @X-ceed:**
   - Avoidance of duplicate display of Broadcasts in "Own Order Overview" under extremely rare conditions
   - Large reduction in transactions on accessing the "Market Supervision Messages" window (see Circular 015/02).
3. **Login**
   - Removal of sporadic occurrences of GUI deadlocks when logging in, particularly with large trader profiles.

Update Kit 1 is a mandatory update which must be installed by 15 February, 2002 at the latest. The update kit should therefore be installed as soon as possible.

Directories and required storage space for the transfer are as follows:

SUN Solaris (MISS):		/opt/gate/transferdir/release00/sun	8 MB + 8 MB NT
	resp.:	/opt/gate/transferdir/release00/nt	
Windows NT (MISS):		<ftp-root directory>\release00\nt	8 MB + 8 MB SUN
	resp.:	<ftp-root directory>\release00\sun	

Please forward this circular to your system administrator so that the data files which are no longer required can be deleted before the software transfer (e.g. software kits, Theoretical Price Files, Reports).

Please also make sure that your production environment is connected to the Eurex network on Wednesday, 13 February, 2002, from 22:00 CET.

If you have not received the software by Friday 15 February, 2002 please contact our Technical Help-desk on +49 69-2101-1200.

Additionally, from Thursday, 14 February, 2002 the software will be available for download from our web-site "eurexchange.com" under the path 'info for members > Eurex software kits > Release 5.0 production'. If you have problems logging in to the Members' section, please contact Functional Member Readiness at +49 69 2101 1700.
