The reporting and position limits for the **June 2010 contracts** in the Euro Fixed Income Futures were set as follows:

- **Euro-Buxl Future (FGBX) 30.000 contracts**
- **Euro-Bund Future (FGBL) 70.000 contracts**
- **Euro-Bobl Future (FGBM) 60.000 contracts**
- **Euro-Schatz Future (FGBS) 55.000 contracts**
- **Euro-BTP Future (FBTP) 30.000 contracts**

Position limits apply only to long positions in the front month contracts of the products concerned. Reporting limits will be valid from **May 31, 2010 to June 3, 2010 after close of trading**. Exceeding reporting limits will cause the Eurex Exchanges to request information from the exchange participant. Position limits will be valid from **June 4, 2010, start of trading,** until **expiration** of the June contract on **June 8, 2010**. Long positions in June 2010 contracts must therefore be within the prescribed limits at start of trading on June 4, 2010.

The limits will constantly be monitored intraday by Eurex Market Supervision and the Trading Surveillance Office. Immediate position adjustments should be made by using the **Trade Adjustment** function (Open/Close Adjustment) instead of the **Position Close-Out**, in order to avoid such transactions being subject to late closing fees.
