Common MISS-based Front End –Technical Overview

This document has been updated to reflect the changes to the technical environment resulting from the new access alternatives, and the use of IP Multicast. It has also been extended to include the relevant networking information from the previous Detailed Member Network Set-up document. This latter document has now been withdrawn.

The new edition of the Technical Overview can be found on our web-site “www.eurexchange.com” under ‘Entrance Hall > Access to Eurex’.
