Due to planned changes to the settlement procedures in the French cash market lacking a final definition, Eurex has temporarily postponed the planned introduction of stock options on French constituents of the Dow Jones Euro STOXX 50. This was originally announced for 22 May 2000 in Circular 009/00.

Immediately after the anticipated changes have been put in place, we will inform you via Circular of the new introduction date, together with the full product specifications and product parameters.
