**Summary:**

After close of trading on **December 7, 2007**, Eurex will distribute update kit 1 for Eurex Release 10.0 Production and update kit 3 for Eurex Release 10.0 Simulation.

The installation of the Eurex Release 10.0 Production update kit 1 and Simulation update kit 3 on all MISSes and workstations is highly recommended. The installation of the Production update kit 1 is mandatory from January 2, 2008 onwards.

The Eurex 10.0 update kits contain the following important modifications and enhancements:

1. Solution of Clearing GUI Access issue (software fix already distributed on November 26, 2007)
2. Improvements of Eurex broadcast server (software fix already published on the Internet on November 29, 2007)
3. Enhancement of US-trader Validation

After close of trading on **December 14, 2007**, the initial kit for Eurex Release 10.0 Advanced Simulation will be distributed. In order to be able to participate in the Eurex Release 10.0 Advanced Simulation, the installation of the Eurex Release 10.0 Advanced Simulation kit is mandatory.

Optimal support can only be provided on the basis of the most recent software versions.

In addition please note that the throttle parameter is scheduled to be reverted to the original value of 80 Hz from Monday, **December 10, 2007**, onwards.

# Eurex Release 10.0: Distribution of Update Kit 1 for Production, Update Kit 3 for Simulation and initial Advanced Simulation Kit

After close of trading on December 7, 2007, Eurex will distribute update kit 1 for Eurex Release 10.0 Production and update kit 3 for Eurex Release 10.0 Simulation.

The installation of the Eurex Release 10.0 Production update kit 1 and Simulation update kit 3 on all MISSes and workstations is highly recommended. The installation of the Production update kit 1 is mandatory from January 2, 2008 onwards.

The Eurex 10.0 update kits contain the following important modifications and enhancements:

**1. Solution of Clearing GUI Access issue**

A software fix for all Clearing Members, which solves Clearing GUI access problems. The software fix was already distributed to all members in a software fix on November 26, 2007 (for more details please refer to Eurex circular 244/07).

**2. Improvements of Eurex broadcast server**

A software fix for the Eurex broadcast server, which eases the handling of gaps detected in Eurex unreliable broadcast streams. This software fix was made available to all members via the Internet on November 29, 2007 (for more details please refer to circular 249/07).

**3. Enhancement of US-trader Validation**

The US trader validation of the Inquire Strategy Inside Market (multi-product inquiry request) and Single Leg Orderbook Depth request has been enhanced. In the event that a US trader performs a multi-product inquiry of the strategy market containing at least one non-CFTC approved product, the multi-product inquiry request will be completely rejected.

After close of trading on December 14, 2007, the initial kit for Eurex Release 10.0 Advanced Simulation will be distributed. In order to be able to participate in the Eurex Release 10.0 Advanced Simulation, the installation of the Eurex Release 10.0 Advanced Simulation kit is mandatory.

Optimal support can only be provided on the basis of the most recent software versions.

The Production and Simulation update kits will be transmitted to Eurex participants via File Transfer Protocol (ftp) on Friday, December 7, 2007, after 23:00 CET for Production and Simulation and can be used from December 10, 2007 onwards.

The initial Advanced Simulation kit will be transmitted to Eurex participants also via File Transfer Protocol (ftp) on Friday, December 14, 2007, after 23:00 CET and can be used from December 17, 2007 onwards.

The software will only be sent to the registered report nodes. In parallel, the kits will be made available for download from the Eurex website under the following paths:

**www.eurexchange.com > Member Section > Software Kits > Eurex 10.0 Simulation**

**www.eurexchange.com > Member Section > Software Kits > Eurex 10.0 Production**

**www.eurexchange.com > Member Section > Software Kits > Eurex 10.0 Advanced Simulation**

Please ensure that the Production and Simulation environments are connected to the Eurex® network on Friday, December 7, 2007 and the Advanced Simulation environment on Friday, December 14, 2007 from 23:00 CET onwards. The following target directories should have a total space capacity of approximately 70 MB per environment (Production and Simulation) and approximately 150 MB in the Advanced Simulation environment for the data transmission:

**Production:**

- SUN Solaris (MISS): /opt/gate/transferdir/release00
- Windows (MISS): <ftp-root directory>\release00

**Simulation:**

- SUN Solaris (MISS): /opt/gate/transferdir/release01
- Windows (MISS): <ftp-root directory>\release01

**Advanced Simulation:**

- SUN Solaris (MISS): /opt/gate/transferdir/release03
- Windows (MISS): <ftp-root directory>\release03

The update kits should be installed according to the instructions contained in the “readme” file, which will be sent together with the kits to the target transfer directory.

If you have not received the Production update kit 1 and Simulation update kit 3 by Tuesday, December 11, 2007 and the initial Advanced Simulation kit by Tuesday, December 18, 2007 please contact our Customer Technical Support under tel. +49-69-211-1 12 00.

Should you experience difficulties logging in to the Member Section, please contact Customer Support on tel. +49-69-211-1 17 00.
