➲ Front Office / Trading ➲ Middle + Back Office ➲ IT / System Administration	Simulation Calendar: 13 June – 09 July 2000

Following various requests from our members Eurex will offer an additional batch in the permanent simulation environment on Thursday, 15 June 2000. Trading will be possible until 11:00 CET on this day. The batch run will be started at approximately 11:30 CET. The simulation environment re-opens again for trading on Friday, 16 June 2000 at 09:00 CET.

Please note that the following system dates of the simulation environment change accordingly. An updated version of the simulation calendar is attached to this circular and replaces the version published in Eurex circular 040/00. The attached version covers only the period from today until 09 July 2000, since Eurex plans an additional expiry of bond products in the simulation environment in July 2000, as was also requested by Eurex members. This requires additional changes of the simulation calendar, which will be published with a later information.
