

# FX Derivatives

## Trade FX on the EU's most cost-effective and liquid exchange.

Eurex offers FX Futures, Options on FX Futures and Rolling Spot Futures. Our product offering combines best-practice OTC market conventions with the transparency and reduced counterparty risk of exchange-traded, centrally cleared derivatives.

Our FX products enable direct trading against the euro and other major currencies at a unique, and liquid, EU-based trading venue. Additionally, Eurex offers block and exchange-for-physical (EFP) functionalities, where transactions are agreed bilaterally and submitted to the exchange. Both our on- and off-book liquidity providers are available around the clock, five days a week.

### PRODUCT OFFERING AT A GLANCE

- Trade 19 currency pairs including 7 pairs on Scandinavian currencies for an all-in (trading and clearing) member fee of 0.30 USD for on-book and 0.45 USD for off-book transactions (also payable in product currency).
- All contracts are 100,000 units of the base currency (except for NOK/SEK pair) with a minimum price change at 1/10th of a pip (except JPY pairs).
- Trade five days a week on the standard T7 trading system or via Eurex EnLight, our fully integrated RFQ platform. In addition, optionally use your 360T OTC FX platform to execute listed FX Futures.
- [Daily USD/KRW Futures on US Dollar Futures](#) are available via the Eurex/KRX Link.

## Benefits

### Competitive pricing

Benefit from lowest possible execution costs and tight trading spreads.

### Liquidity

Utilize Eurex, Eurex Clearing and 360T's combined power, and choose the right FX liquidity pool, execution-style, and risk exposure for each trade.

### Margin efficiency

Take advantage of efficient portfolio-based margining.

### Safety

Mitigate your risk and take advantage of an EU-based central counterparty's reliable default management process providing a cost-effective solution with maximum safety.
