After the successful increase of the broadcast rate for Inside Market and order book depth for the highly liquid futures contracts in the course of Eurex Release 7.0, Eurex will further enhance the quality of its market data as of December 13, 2004 and double once again the present broadcast rate for these products. Thus, price updates for these broadcasts will be transmitted every 250 ms.

The list below specifies the products for which the broadcast rate will be increased:

Product Code	Product
CONF	CONF Futures
F1TA	Dow Jones Italy Titans 30^{SM} Index Futures
FDAX	DAX® Futures
FESB	Dow Jones EURO STOXX^{SM} Banks Futures
