Summary:

At the General Meeting of Givaudan Group on April 27, 2005 the payment of an extraordinary dividend will be suggested to the shareholders. This extraordinary dividend of CHF 6.50 is in addition to the ordinary dividend of CHF 9.80. You were already informed on March 1, 2005 via the **Market Supervision Messages** window that an adjustment to the Eurex option on shares of the Givaudan Group for existing series would be required.

This circular contains a description of the adjustment procedure.

Givaudan (GIVN) – Extraordinary Dividend

At the General Meeting of Givaudan Group (GIVN) on April 27, 2005, the payment of an extraordinary dividend will be suggested to the shareholders. This extraordinary dividend of CHF 6.50 is in addition to the ordinary dividend of CHF 9.80.

The ex day is planned for May 2, 2005.

As a result of this extraordinary dividend, an adjustment to the Eurex option on shares of the Givaudan Group pursuant to Section 2.15.7 (3) of the Contract Specifications for Futures Contracts and Options Contracts at Eurex Deutschland and Eurex Zürich will be required.

Eurex already informed members on March 1, 2005 via the **Market Supervision Messages** window that an adjustment to the Eurex option on shares of Givaudan Group for existing series would be required, if the proposal is passed at the General Meeting on April 27, 2005. The procedure is as follows:

The closing auction price of the share of Givaudan Group on April 29, 2005 is the basis for the adjustment. This price will firstly be reduced by the amount of the regular dividend. The resulting price will be used to calculate the adjustment factor (R-factor).

S1 = Closing auction price of the GIVN share

S2 = S1 – regular dividend

S3 = S2 – extraordinary dividend

R-factor = S3/S2

Adjustment of the strike price will be made by multiplying by the R-factor. The contract size will be increased accordingly, so that the original contract value is maintained.

C1 = old contract size

C2 = new contract size

X1 = old strike price

X2 = new strike price

C2 = (C1 * X1)/X2

The strike prices and contract sizes resulting from the adjustment will be published immediately after close of trading on the last cum trading day, April 29, 2005, via the **Market Supervision Messages** window. The version number of adjusted series will be increased by 1. New series with version number 0 and the standard contract size of 10 will be introduced with effect from the ex day, May 2, 2005. All outstanding orders and quotes will be deleted after close of trading on April 29, 2005.

On exercise of an adjusted series, a cash payment will be made for the fractional part of the new standard contract size.

On the days before payment of the extraordinary dividend the **Contract Cover Assignment Entry** window should be used to delete all allocations of shares covering short call positions for the GIVN product.

Please contact the Functional Helpdesk on +49-69-211-1 12 10, should you have any further questions.
