Eurex Release 7.0 – Additional Release Documentation

In line with the introduction of Eurex Release 7.0 in October 2004, the following files and documentation are now available for download from the Eurex website:

- Member Front End Development Guide - Eurex Application Requests, Final Version
- VALUES API Modification Notes, Final Version
- VALUES Header Packages for SUN/Solaris and Windows

These documents and files have the status “Final” and replace all documents and files as published in Eurex Circular 059/04.

In addition the following documents have been published:

- Simulation Guide
- Simulation Scripts and Schedules

The “Member Front End Development Guide - Eurex Application Requests, Final Version”, the “VALUES API Modification Notes” and the “VALUES Header Packages” may be found under:

www.eurexchange.com > Member Section > Software Releases Eurex >
VALUES API Final Version Release 7.0/GATE 3.3

The “Simulation Guide”, containing key information, simulation planning support and guidelines for participants’ activities during Eurex Release 7.0 simulation, may be found under:

www.eurexchange.com > Member Section > Software Releases Eurex > Eurex Releases 7.0

The “Simulation Scripts and Schedules” gives detailed information on the simulation schedule and timeline as well as simulation suggestions regarding the trading and clearing functionality delivered with Eurex 7.0. In addition this document describes how the respective trading and clearing functions can be applied. “Simulation Scripts and Schedules” may be found under:

www.eurexchange.com > Member Section > Software Releases Eurex > Eurex Releases 7.0

Please note that Eurex Release 7.0 also contains changes for the introduction of the Global Clearing Link with the Clearing Corporation. Implementation of the Global Clearing Link is dependent on receiving all the required regulatory approvals. For this reason the schedule, concept and all other information contained in the documents listed above may be subject to change.
