**Summary:**

After close of trading on **September 10, 2004**, Eurex will distribute an update kit 1 for both Eurex Release 7.0 simulation and GATE 3.3 simulation, recommending the installation of these update kits on all MISSes and workstations.

The update kits contain some important technical improvements and can be used in simulation as of September 13, 2004. Please be advised in this connection that, after that date, support can only be rendered on the basis of the most recent software version.

# Distribution of Update Kits for Eurex 7.0 Simulation and GATE 3.3 Simulation

After close of trading on September 10, 2004, Eurex will distribute an update kit 1 for both Eurex Release 7.0 simulation and GATE 3.3 simulation, recommending the installation of these update kits on all MISSes and workstations.

The update kits contain some important technical improvements and can be used in simulation as of September 13, 2004. Please be advised in this connection that, after that date, support can only be rendered on the basis of the most recent software version.

The update kits will be transmitted to Eurex participants via File Transfer Protocol (ftp) on Friday, September 10, 2004, after 21:00 CET. The software will only be sent to the registered report nodes. In parallel, the kits will be made available for download from the Eurex website under the following path:

**www.eurexchange.com > Member Section > Software Kits > Eurex 7.0 Simulation.**

Please ensure that the simulation environment is connected to the Eurex network on Friday September 10, 2004 from 21:00 CET onwards and that the following target directories have a space capacity of approximately 15 MB each for data transmission:

- SUN Solaris (MISS): /opt/gate/transferdir/release01
- Windows 2000 (MISS): <ftp-root directory>\release01

Simulation kits must be installed according to the instructions contained in the “readme” files, which will be sent together with the kits to the target transfer directory.

If you have not received the update kits for the simulation of Eurex Release 7.0 and GATE Release 3.3 by Tuesday, September 14, 2004, please contact the Technical Help Desk on +49-69-211-1 12 00.

Should you experience difficulties logging in to the “member section”, please contact Customer Support on +49-69-211-1 17 00.
