In order to further increase testing opportunities in Eurex 7.0 Release Simulation, additional liquidity will be provided in the Eurex product FESI on Thursday, September 30, 2004 between 17:30 and 24:00 CET.

It is planned to enter a large number of orders at different prices in the FESI front month.

We invite all Eurex members and vendors to actively participate in Eurex 7.0 Release Simulation, especially in FESI during the above-mentioned time.

As already announced with Eurex Circular 124/04, FESI is one of the products affected by the increase of the broadcast rate of the “Inside Market” and “Order Book Depth” streams.
