In the course of disseminating CCP Release 3.0 information, the publication of the 'VALUES API Modification Announcement' was announced with Eurex circular 144/04. Today, we would like to draw your attention to the availability of a complementary document, the 'VALUES API Member Front End Development Guide' for CCP Release 3.0.

This document serves as a guideline for developing and implementing applications which use the VALUES API interface for operating Gross Delivery Management (GDM).

The aforementioned document has been posted in the Member Section of the Eurex website. For your personal download copy, please visit
