Content may be most important for:	**Attachments:**
➲ All departments	(only on Eurex Website) 1. Eurex User Manual - System Security 2. Eurex User Manual - System Overview & Information Manual 3. Eurex Intraday Risk Information Services - User Guide

In order to support Eurex market participants in their implementation activities for Eurex Release 8.0, Eurex has now published the following documents:

- **Eurex User Manual - System Security**
  The user manual explains those security functions members of the Eurex exchanges are responsible for themselves. It contains detailed descriptions of all menus for maintenance of the security functions the Eurex® system provides.
- **Eurex User Manual - System Overview & Information Manual**
  The document provides a summary of the Eurex® system and its documentation. It contains some general information on the system functions, which are used in the trading and clearing systems.
  The second part of the document answers questions Eurex users may have concerning trades cleared by Eurex Clearing AG and by the EEX AG Clearing Department.

For your personal download copies of these documents, please visit our website under the following path:
www.eurexchange.com > Member Section > Documentation Manuals Eurex > Eurex 8.0 > General System Overview

- **Eurex Intraday Risk Information Services - User Guide**
  This document is intended to be an information bulletin on Eurex Intraday Risk Information Services procedures, log-in windows, user set-ups, daily operations and handling of Intraday Risk Information Services reports or files.

For your personal download copy of this document, please visit our website under the following path:
