In order to make the changes to Resource Access Levels described in the Eurex 5.0 Technical Release Notes, some additional preliminary modifications need to be made.

A pre-conversion of selected Resource Access Levels (RALs), will be performed on 15 November, 2001, after the close of trading. This exercise will make some necessary technical changes in advance of the full conversion at the time of the Release 5.0 introduction on 03 December, 2001.

Among the changes, certain RALs related to Back Office user identifiers will be changed. For technical reasons, the resources for CSGR (formerly RAL position code 280 - Change Subgroup) and for C120 (formerly RAL position code 341 – C120) will no longer be available for Back Office user identifiers. In future, these functions will only be available to Traders.

In addition, the treatment of quote request and quote entry resources for MASS quotes has been harmonized with that for normal quotes. Therefore, access to resource 2008 (RAL position code 264 - Quote Request) will exclude access to resources 2001 (RAL position code 262 - Quote Entry), 2210 (RAL position code 272 - MASS Quote Release) and 2310 (RAL position code 274 - MMASS Quote Release).

Other adjustments will have no functional impact.

The pre-conversion will be carried out by Eurex, and members who foresee any operational problems with the changes described above should contact the Clearing Help-desk on +49 69-2101-1250.
