As announced in Eurex Circular 189/05, support for Solaris 8 as operating system for sparc-based Eurex and CCP member workstations will end on **July 31, 2006**. From then on, only Solaris 10 will be supported for these purposes.

Please note that application of the upcoming Eurex Release 9 will only be possible on the basis of Solaris 10. As a special feature of Solaris10, Sun has optimized the IP stack. An early introduction of Solaris 10 will therefore pose a potential advantage for our members even today.

For these reasons, we recommend to our customers to carry out the upcoming changeover to Solaris10 with priority.

Should you require further details, please do not hesitate to contact the Technical Helpdesk at tel. +49-69-211-1 12 00.
