Xetra Release 10.0:
Failed Kit Transfer – New Transfer will take Place Tonight

Dear Sir or Madam,

The Xetra Release 10.0 Front-End Software Kits for **SUN Solaris 10** have been distributed in the wrong format and can therefore not be used for installation.

A new transfer of the kits is scheduled for **tonight**, **June 4**, after the close of trading.

The target transfer directories on the Xetra Release 10.0 production MISSes are:

For Xetra Frankfurt:
SUN Solaris 10: **/opt/gate/transferdir/release51**

For Xetra Frankfurt 2:
SUN Solaris 10: **/opt/gate/transferdir/release61**

Existing (wrong) versions in these directories will be automatically overwritten by the new version.

To ensure a smooth distribution of the kits, please note the following:

- At least **120 MB** disk space has to be available in the transfer directory on each of your production MISSes.
- To enable the file transfer, please make sure that your Xetra production MISSes are reachable via the Xetra network without interruption from **Thursday evening, June 4** until **Saturday morning, June 6, 2009**.
- Please check that the necessary read and write permissions for files and folders are set correctly.

Deutsche Börse AG will monitor the successful distribution of the Xetra Release 10.0 front-end software kits. In case of any transfer problems, a new transfer will be initiated for the next day.

The kits are already available in the correct format, i.e. fit for installation, on the website of the Deutsche Börse Group www.deutsche-boerse.com. To download your copy, please visit:

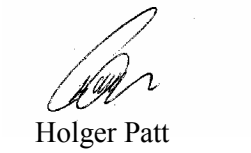

Trading & Clearing > Members Only > Xetra/Floor > Xetra Information > Xetra Software > Xetra 10.0

For questions with technical background please contact Xetra Customer Technical Support at tel. +49-(0) 69-2 11-1 84 00. For any other questions you may have, please call Member Services & Admission at tel. +49-(0) 69-2 11-1 16 40.

Yours faithfully,
On behalf of the Management Board

Axel Birk
