Xetra Release 9.1 Permanent Simulation - Production - Advanced Simulation Information regarding Distribution and Installation of Simulation Update Kit 2, of Production Update Kit 1 and of Advanced Simulation Update Kit 1

Dear Sir or Madam,

This circular provides details about distribution and installation of the Xetra Release 9.1 update kits for Xetra front-ends Xetra Frankfurt and Xetra Frankfurt 2.

The update kits contain the following adjustments:

- Amendments by using dynamic filters
- With the function “Add Using” for quotes all data will be transferred correctly to the quote entry window
- Midpoint trade prices will be shown in the ticker with three decimal places, as intended, and problems with successive modifications of the same trade have been resolved

The hotfix (replacement file) distributed on December 1, 2008 is contained in the update kits (see Xetra circular 200/08).

SUN Solaris 10	**/opt/gate/transferdir/ release52 (62)**	**/opt/gate/transferdir/ release51 (61)**	**/opt/gate/transferdir/ release53**
Windows Server 2003	**<ftp-root directory> \release52 (62)**	**<ftp-root directory> \release51 (61)**	**<ftp-root directory>\release53**
Storage space per environ-ment	**35 MB**	**35 MB**	**35 MB**
Software provision on the website	**30.01.2009**	**13.02.2009**	**13.02.2009**

Each member will receive both update kits, i.e. the kit for SUN Solaris 10 and the kit for Microsoft Windows.

Please make sure that the report MISSes of your Xetra simulation or production environments will be reachable without interruption on the named distribution dates to enable the file transfer.

Please check that the necessary read and write permissions for files and folders are set correctly.

Deutsche Börse AG will monitor the successful distribution of the kits. In case of any transfer problems, another transfer for the next day will be initiated auto-matically. In addition, the software will be available on the website of Deutsche Börse Group www.deutsche-boerse.com for downloading under the following path:

[1] For usage of Xetra Advanced Simulation the conclusion of an agreement between the member and Deutsche Börse AG is required. If you are interested in using the Xetra Advanced Simulation please contact your Key Account Manager.

www.deutsche-boerse.com > Trading & Clearing > Members Only > Xetra/Floor > Xetra Information > Xetra Software > Xetra 9.1
or
www.deutsche-boerse.com > Trading & Clearing > Members Only > Xetra/Floor > Xetra Information > Xetra Advanced Simulation

Installation:
Please install the update kits immediately on the MISSes and workstations. Support will only be provided on the basis of the most recent software version for Xetra Release 9.1.

For further details about installation, please refer to the "Installation Notes" (readme file) for Xetra Release 9.1 update kits which will be distributed together with the software kits.

Distribution of @Xetra Software via Java Web Start

For @Xetra customers, all front-end software components will be distributed through the Web Start servers managed by Deutsche Börse Systems AG. By starting the applications available under

http://atxetra.deutsche-boerse.com/xetra/simu/ resp./prod/

the download process will be initiated.

The respective Xetra Release 9.1 simulation or production software will be available for automatic downloading on each Monday after distribution start. After the download has been completed, @Xetra customers will be able to log in to the Xetra back-end.

Please ensure that the Java cache and the browser cache have been cleared **before** starting @Xetra.

For any further questions you may have, please contact Xetra Customer Technical Support on telephone 49-(0) 69-2 11-1 84 00.

Yours faithfully,
On behalf of the Management Board

Axel Birk
