Content may be most important for:	**Attachments:**
Ü IT / System Administration	none

Since beginning of Eurex 8.0-1 simulation one June 6, 2006 the Eurex simulation system transmits to all participants who subscribe to the "Public Broadcast Stream X" the following validation message which is entered into the elblocal-logfile:

„Member Not Authorized To Subscribe To This Stream"

The transmission of this validation message has its origin in the introduction of an additional substream of broadcast stream X upon implementation of Eurex 8.0-1. The newly introduced substream serves only for internal purposes of Eurex and cannot be subscribed to by participants.

Eurex would like to advise its clients that broadcast stream X will continue to be supplied, irrespective of this validation message. This will also apply after the introduction of Eurex 8.01-1 in production, scheduled for August 14, 2006.

A more precise validation message by the system will be available as of the implementation of Eurex 9.0, planned for November 13, 2006.
