Ü Front Office / Trading Ü IT / System Administration Ü Auditing / Security Coordination	Application for the Setting Up/Modification/Deletion of PIN Codes for Mass Deletion in the Eurex® System

Complementing the optional PIN legitimation for the use of Mass Deletion introduced on April 1, 2006, the Management Boards of the Eurex Exchanges decided with effect from **September 1, 2006,** that it will be no longer necessary to set up a Eurex user ID (000PIN) in the Eurex® system. Instead, by means of the attached form, members may register a PIN. Market Supervision will then validate this PIN through reconfirmation over the telephone.

If the PIN procedure has been selected, Mass Deletion can only be initiated by naming the correct PIN. For members who have not registered for the PIN procedure, the established procedure, i.e. naming an active user ID, remains unchanged. For those members who have already opted for the PIN procedure for Mass Deletion, the Eurex user ID (000PIN) will be deleted by Market Supervision. The validity of the PIN, however, will remain unchanged.

Participants have to ensure that only authorized staff has access to the Mass Deletion PIN. Participants will be liable for any damage which might arise by misuse or incorrect use of the PIN.
